

Why Do I Do Art

Here are my thoughts on "Why do I do Art!!

My every waking moment is thoughts about creating Art! From the moment I was created, I was given the gift to create! It helps to clear my mind and have peaceful thoughts. My thoughts are always searching for creative things to do - even cooking, is a creative art! I love the sharing of my talents with the entire world!

Teaching others a form of art is a way to absorb myself into a peaceful state of tranquility. To me, the only way to have your life fulfilled is by being creative with any form of Art! I completely absorb myself into my art and what I create. No Shrinks or tranquilizers are needed for anyone that is into any form of Art! Again, for me, such a wonderful and time-consuming hobby and love!
