

## Why Do I Do Art?

Visual artists can't help but to SEE things that others don't... We can't help it... Everything we do is artistic and creative... We don't even know that we do it... We are different than the rest of the world, yet we totally understand each other... I do art because it makes me feel good and I feel I have NO choice but to be an artist... I know how lucky I am to follow my passion and feel sorry for those who don't.
